

Judge

Judge Features

Rotisserie Model allows for consistent heat throughout the smoking process.

- Full length firebox for consistent heat in the Rotisserie
- (4) dampers for precise control of heat and smoke
- Large easy read high temperature gauges
- Stainless steel, cool touch handles
- Ash removal rake system allows safe, easy clean out with no mess
- Painted with durable high temp paint
- Large smokebox door for easy access to Rotisserie
- Smokebox doors have screw tight knobs for minimum loss of heat and smoke
- (8) Stainless steel Rotisserie racks for plenty of smoking surface
- Additional Stainless steel flat racks can be ordered with removal of rotisserie
- Sear & grill meat on a Stainless steel grate in firebox
- Efficient firebox design for low operating expense
- Fire grate is made of heavy duty expanded metal with ½ inch round rod frame for durability
- Heavy duty, durable door hinges
- Large 1½ inch brass ball valve for easy drainage of juices
- Large 10 inch pneumatic casters allows for easy handling
- Dependable low rpm motor
- Polished Stainless steel belt guard
- Removable Stainless steel work shelves on front and side
- Fabricated and welded by experienced professionals
- Fabricated with new heavy gauge material for longevity
- Made in the U.S.A.

The Judge can be ordered with undercarriage kit, axle, and wheels or mounted on a flatbed trailer.
